READY MEALS

RONAIR® installations are the ideal solution for drying your ready meals. We offer a range of configurations for an optimum drying, depending on the product.

Our installations ensure maximum efficiency at minimum cost and reduced environmental impact.

To remove any excess water droplets from your trays, we discuss each project in detail with you.

With our RONAIR® installation, we offer you:

- A good drying result.
- A compact design.
- A smooth surface for easy cleaning and water drainage.
- Easy maintenance.
- Acoustic insulation panels.
- Automatic height control.
- Possibility of adjusting the machine to different product types and sizes.
- SIEMENS safety PLC to control and monitor the dryer.
- Automatic stop by door contacts.

Drying & blowing solutions

Résultats de test	Quantité d'eau	Résiduel	Efficacité de séchage
	1,390 g	0,020 g	98,56%
	1,670 g	0,000 g	100,00%
	1,320 g	0,010 g	99,24%
	1,230 g	0,000 g	100,00%
	1,420 g	0,000 g	100,00%
Moyenne	1,406 g	0,006 g	99,57%

DOYPACKS

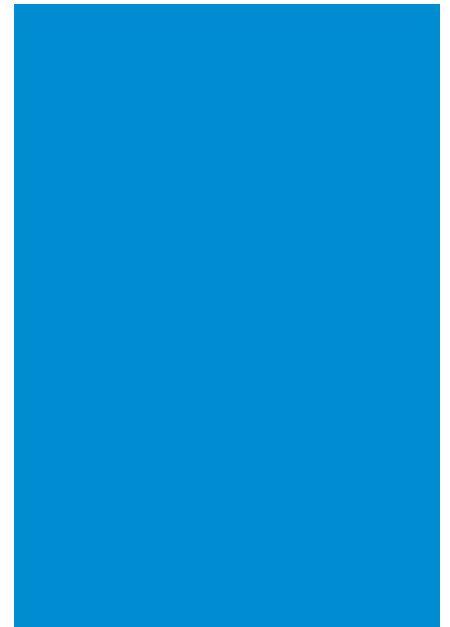

Thanks to advanced technologies and a well thought-out design, our installation offers an efficient solution for drying the famous doypacks.

One of the advantages of the **RONAIR®** drying system is its versatility. It can be adapted to doypacks of different sizes and shapes.

In addition to its excellent drying performance, the **RONAIR®** drying system is also renowned for its energy efficiency. It uses advanced technologies to optimise energy consumption, allowing you as a producer to benefit from lower operating costs and a reduced carbon footprint.

What's most important for us:

- High-quality drying performance.
- Better production quality.
- Flexibility.
- Efficient energy consumption.
- User-friendly design.
